

AMENDMENT NO. 01
TO THE FY 2026–2027 AMERICORPS MARYLAND FORMULA NOFO
Date: April 15, 2026
Issuing Agency: Maryland Department of Service and Civic Innovation (DSCI)
Notice Title: AmeriCorps Maryland Formula Grants 2026–2027

I. Purpose of Amendment

This Amendment removes from the NOFO all requirements, limitations, statements, and related stipulations concerning updated member enrollment timelines and any prohibition on waivers to enrollment timelines.

II. Amendments to the NOFO

Effective immediately, the following text and any substantively identical or derivative references are deleted in their entirety wherever they appear in the NOFO and any appendices, summaries, or tables:

1. In the “Significant Changes for FY26 Notice of Funding Opportunity” and “Member Enrollment Requirements” sections, the statements: “Programs must follow updated enrollment timelines: Up to 6 months for most programs; Up to 9 months if 60% or more of slots are less than half-time. No exceptions or waivers will be granted.”
2. In Section II.C (Project and Award Period) or elsewhere in the body text describing enrollment period limits and waiver unavailability, the statements: “Member enrollment periods... cannot exceed 6 months. Programs with 60% or more of less-than-half-time slot types have enrollment periods limited to a 9-month... period. Further, AmeriCorps has indicated that no waiver to the ... enrollment period policy will be provided.”

III. Conforming Changes

All cross-references, summaries, “Significant Changes,” tables of contents entries, headings, application instructions, and funding release or review criteria that rely on or restate the deleted enrollment timeline requirements or no-waiver stipulations are conformed by striking such references.

IV. No Other Changes. Except as expressly amended above, all other terms, conditions, eligibility requirements, timelines, and instructions in the NOFO remain in full force and effect.

V. Administrative Information.
